

FOR IMMEDIATE RELEASE

Tensor Sells Press to Indonesian Book Printer

PT Tiga Serangkai Orders Fifth Tensor Press

WOODRIDGE, ILLINOIS, USA — March 21, 2012 — Tensor International LLC, a U.S. manufacturer of single-width web offset press equipment, is pleased to announce the sale of a new pressline to Indonesian book publisher and printer, PT Tiga Serangkai.

Mike Pavone, Tensor's COO and VP of sales said, "We are happy to be selected as the OEM of choice by one of the most successful book publishers in this region. Tiga Serangkai's continued faith in Tensor quality and technical support is greatly appreciated by the Tensor team."

This is the fifth Tensor press purchased by Tiga Serangkai. Those presslines are often running 24 hours per day at full speed with small windows of maintenance time allowed. The presses have performed well under this heavy production schedule, so the company opted to purchase another Tensor press to accommodate demand for a new book format.

The latest T-1400 4-high tower and T-1 folder, scheduled to ship to Solo, Indonesia from Tensor's U.S. plant this May, will have a 630 cutoff for the new textbook format. The T-1400 units are equipped with bearers on both the blanket and plate cylinders, features that are generally standard on Tensor's T-400BE press design.

Further details on Tensor press equipment and other recent press sales news can be found at www.ustensor.com.

About Tiga Serangkai PT

Tiga Serangkai, founded in 1958 by schoolteachers H. Abdullah Marzuki and his wife Hj. Siti Aminah Abdullah, has grown to become one of Indonesia's leading schoolbook publishers and printers. The company maintains numerous branches throughout Indonesia, with a main focus on publishing textbooks, children's books and novels.

About AH Tensor International LLC

Tensor International was created in early 2012 by combining the synergy and design innovation knowledge of key former employees of Tensor Group with DCOS, a premier innovator and major printing industry automation supplier. This combination of strengths makes Tensor International unique in the single-wide, single-round press market and allows the company to offer press packages that provide outstanding ROI and reliability throughout the expected life cycle of the press.

Tensor's semi-commercial, insert and newspaper press equipment is valued worldwide for incomparable durability, quality and user-friendliness. Tensor manufactures its single-width press equipment and related parts exclusively in the United States and retains a worldwide network of dealers to support its sales, service and marketing efforts.
